Re: College Works Painting

To Whom It May Concern:

A College Works Painting crew led by Spencer Burkholder today completed work on our deck and porch.

The contract included power-washing and preparing the deck surface, which had an existing oil-based stain; preparing the deck railing and screened porch trim, and applying different color opaque latex stains to the deck surface and the railing and trim. Also included was similar work on an A-frame wooden swing.

Spencer was prompt and courteous in his initial contacts leading to the contract, and he and his crew performed excellent work. My wife and I are very pleased with the finished product, and would not hesitate to recommend Spencer and his crew to our friends.

Yours very truly,

To whom it may concern:

May 22, 2009

Our experience with College Works Painting (CWP) was excellent. The project was managed by Spencer Burkholder. Spencer's execution to the detail of the scope of work purchased was to the full extent of the contract. His management of the project's scope was completed on-time, on-budget and safely performed.

Spencer and his crew were always timely, respectful and clean throughout the project.

In support of the project, Matthew Brannon and Graeme Robinson performed their tasks with diligence and dedication. The quality of their work was very good.

As the undersigned, we would recommend The CWP Program and Spencer Burkholder to our neighbors, friends and colleagues.

Sincerely;
